

AQUAVISTA - ELECTRICAL PLAN

The Electrical Plan is a representation of a typical suite layout only. Its purpose is to show approximate electrical locations which are subject to change without notice as a result of the construction process and per the Agreement of Purchase and Sale.

All electrical items are placed at the Vendors discretion which is governed by Provincial and Municipal regulatory codes and in collaboration with professional consultants. Generally, ceiling light fixtures are placed to the approximate centre of the functional space of the room regardless of the bulkhead locations. Capped ceiling outlets, as an exception, are specifically dimensioned per below and may vary by approximately 6" in any direction of the specification due to structural limitations.

All Customers' requested Personal Selection revisions will be included in a Personal Selections Addendum and Schedule C floor plan which is formally approved by the Customer and Vendor and accepted for construction after payment. If an accepted Electrical Personal Selection requires notification or elimination as a result of the construction process than the Customer will be rebated the cost of the Selection requires notification or elimination as a result of the construction process than the Customer will be rebated the cost of the Personal Selection as outlined in detail in the Agreement of Purchase & Sale.

The Electrical Plan does not reflect and should not be used to demonstrate any changes to suite design made by the Customer or the Vendor.

AQUAVISTA - ELECTRICAL PLAN

The Electrical Plan is a representation of a typical suite layout only. Its purpose is to show approximate electrical locations which are subject to change without notice as a result of the construction process and per the Agreement of Purchase and Sale.

All electrical items are placed at the Vendors discretion which is governed by Provincial and Municipal regulatory codes and in collaboration with professional consultants. Generally, ceiling light fixtures are placed to the approximate centre of the functional space of the room regardless of the bulkhead locations. Capped ceiling outlets, as an exception, are specifically dimensioned per below and may vary by approximately 6" in any direction of the specification due to structural limitations.

All Customers' requested Personal Selection revisions will be included in a Personal Selections Addendum and Schedule C floor plan which is formally approved by the Customer and Vendor and accepted for construction after payment. If an accepted Electrical Personal Selection requires notification or elimination as a result of the construction process than the Customer will be rebated the cost of the Selection requires notification or elimination as a result of the construction process than the Customer will be rebated the cost of the Personal Selection as outlined in detail in the Agreement of Purchase & Sale.

The Electrical Plan does not reflect and should not be used to demonstrate any changes to suite design made by the Customer or the Vendor.

AQUAVISTA - ELECTRICAL PLAN

The Electrical Plan is a representation of a typical suite layout only. Its purpose is to show approximate electrical locations which are subject to change without notice as a result of the construction process and per the Agreement of Purchase and Sale.

All electrical items are placed at the Vendors discretion which is governed by Provincial and Municipal regulatory codes and in collaboration with professional consultants. Generally, ceiling light fixtures are placed to the approximate centre of the functional space of the room regardless of the bulkhead locations. Capped ceiling outlets, as an exception, are specifically dimensioned per below and may vary by approximately 6" in any direction of the specification due to structural limitations.

All Customers' requested Personal Selection revisions will be included in a Personal Selections Addendum and Schedule C floor plan which is formally approved by the Customer and Vendor and accepted for construction after payment. If an accepted Electrical Personal Selection requires notification or elimination as a result of the construction process than the Customer will be rebated the cost of the Selection requires notification or elimination as a result of the construction process than the Customer will be rebated the cost of the Personal Selection as outlined in detail in the Agreement of Purchase & Sale.

The Electrical Plan does not reflect and should not be used to demonstrate any changes to suite design made by the Customer or the Vendor.
